—A flour train from Duluth will pass through here the last of the week bound for Portland, Boston and Brattleboro. Fifteen cars decorated with banners and mottoes left Duluth last Saturday.

—Caldwell & Varnum expect to have the Lake Shore road completed about the first of June. The track is all laid and the ballasting will be completed as soon as the frost is out of the ground. The road runs for 17 miles around Lake Winnepesaukee and is a very picturesque route.

—The Merchants' association meet tomorrow night to discuss the question of fighting their stores by electricity independent of the present company. Several of our merchants have become disgusted with the present service and have taken out their lights.

—Homer E. Brewster of Passumpsic has sold his well-known trotter, Rocket, record 2:26 1/4, to J. J. Newman of Providence, R. I., for \$1750. Rocket made a fine showing at the fairs throughout this state last fall, but will be used more as a roadster than a trotter by his new owner.

—A union Fast day service was held at the South church Friday morning conducted by Rev. E. T. Sandford. He was the only speaker and gave an address suggested by the words found in John 19:16. Other pastors and laymen offered prayer and the service closed with the benediction by Rev. E. A. Hoyt.

—Rev. Bishop McGeehan of Burlington will come to St. Johnsbury on May 7 and give first communion and confirmation at the Catholic church. Before returning to Burlington he will conduct a similar service at Lyndonville and Wells River.—The parochial schools opened Tuesday with an attendance of 165 boys and about 150 girls.

—The disagreeable smell which pervaded the village Wednesday afternoon was caused by the leakage of an oil tank at Ely's hoe factory in Summerville. The oil ran into Moose river and thence into the Passumpsic and the smell was so strong as to be noticed at the Centre. The tank is under ground and will be difficult to repair.

—The Manchester Union says: "The Boston & Maine corporation since they acquired the Passumpsic have been continually laying out money in putting the road up in first-class shape, and although these improvements are to be seen on every hand, still the managers have not been in view." It is to be sincerely hoped that the management have in mind some improvements at the St. Johnsbury depot.

—A representative of an Ohio sugar evaporator manufacturing company was in town Tuesday with reference to locating in this village. This firm employs about 80 men and puts about \$40,000 worth of goods upon the Eastern market annually. St. Johnsbury would be glad to have such an enterprise locate here and the town ought to try and get them.
